FREE classes for hands-only CPR with AED and Stop the Bleed

POST DATE July 22, 2023

Description Peoples Valley Fire District is offering free non-certifying classes to the community to learn hands-only Cardiopulmonary Resuscitation (CPR) and training on using an Automated External Defibrillator (AED) as well as Stop the Bleed.

Classes will be offered on August 26 and November 11

9:00 -11:00 AM

**Old Peoples Valley School
18205 S. Hwy 89, Peoples Valley, AZ**

This event is open to all residents aged 14 and older. All classes are limited seating, and attendees must sign-up in advance using the online form. **Walk-ins will not be accepted.**

Immediate life-saving action is crucial to helping someone in cardiac arrest. You could make all the difference by calling 9-1-1 and starting hands-only CPR. This training provides an easy and effective method for any bystander to double or even triple a cardiac arrest victim's chance of survival. Additionally, using an AED can restore a normal heartbeat rhythm after cardiac arrest, and learning how to operate an AED is essential.

The registration form can be found on the district website <https://peoplesvalleyfire.org> under the Community Outreach tab or by scanning the QR code below.
